EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Science Engineering, Specialization in AIML

Chennai, IN

June 2023 - 2027

CGPA: 9.11/10

PROFESSIONAL EXPERIENCE

Full Stack Developer – Technical Department Core Member

April 2025 - April 2026

V-NEST, VIT Chennai Startup and Research Foundation

On Going - Chennai, IN

- Selected as core member of technical team at V-NEST, VIT Chennai's official startup incubator
- Lead frontend design and development for multiple internal and external platforms using **React.js**, **Next.js**, **Material UI**, and **Tailwind CSS** with **fully responsive design** principles
- Contribute to backend development using **Node.js**, **Express.js**, and **PostgreSQL** for next-generation V-NEST website
- Utilize **Docker** for containerized development and deployment workflows
- Key Projects:
 - * Solveathon Portal: Developed responsive UI for event registration and announcements
 - * Demo Portal: Leading full-stack development using modern tech stack and responsive design
 - * V-NEST Official Website: Supporting complete redesign effort
 - * Admin Dashboard: (restricted access) Built internal admin interface
- Recognized by V-NEST leadership for clean design, reliability, and development ownership across multiple full-stack applications

PROJECTS

Finance Manager | *React, Node.js, Express, MongoDB, Alpha Vantage API, Llama API*

Feb 2025

- * Full-stack web application for investment portfolio management with real-time stock tracking
- * Responsive frontend using React and Material-UI for intuitive user experience
- * Implemented secure backend with Node.js, Express, and **JWT authentication**
- * Integrated Alpha Vantage API for real-time stock data and Llama API for **AI-driven investment recommendations**
- * Link : Finance Manager

Wanderlust (Airbnb Clone) | *Node.js, Express, MongoDB, Mapbox, EJS*

July 2024

- * Full-stack rental property platform with listing, search, review, and management features
- * Built responsive frontend using **EJS** and integrated **Mapbox** for interactive location-based listings
- * Implemented secure authentication using **Passport.js** and enabled **CRUD** operations for property management
- * Deployed on Render with location-based search functionality
- * Link : Wanderlust

HACKATHON'S

Vertex Hackathon 2025 - Finalist

Feb 2025

Are You Being Tracked? (Browser Extension)

VIT Vellore

- Browser extension to detect hidden website trackers and enhance user privacy
- Real-time tracker detection** with privacy risk scoring system
- Selected as finalist among top 26 teams using **JavaScript**, **Chrome Extension APIs**, and **web security techniques**
- GitHub Repository
